07 Courses, the Wellness Library, and products

08 Templates and scripts

09 Working agreements and getting started

Welcome

Build & Bloom Collective helps organizations take care of the people who do the work. We sit at the intersection of psychology, social justice, and community-based practice, and we treat infrastructure as care.

This guidebook is for two readers. If you are thinking about working with us, it shows what we offer and how an engagement runs. If you are already a client, it is your map to the portal, your strategy plan, and the wellness assessment.

WHO WE SERVE

- Mental health practices and helping organizations that want operations that stop wearing their people down.
- Black entrepreneurs and community businesses that want clarity, structure, and growth that lasts.

WHAT WE BELIEVE

- Burnout is usually an operations problem before it is a personal one.
- Clear systems are a form of respect for the people inside them.
- Good plans are built with you, in your context, at a pace you can sustain.

Services at a glance

Every engagement is built from the services below. Most clients start with one and add others as the work shows what is needed.

SERVICE	BEST FOR	WHAT YOU GET	FORMAT
Organizational Wellness Assessment	Teams that feel stretched and need to know why	A structured review of workloads, scheduling, team support, and workflows, with a prioritized action plan	Project
Strategy & Capacity Consulting	Entrepreneurs, small orgs, and community-based teams seeking clarity and structure	Assessment, strategic planning, offer design, and psychology-informed leadership support	Project or 3 to 6 month retainer
Administrative Organizing & Operations	Leaders carrying the whole operation in their head	Systems, documentation, coordination, and ongoing admin support	Monthly retainer
The Sustained Healer Masterclass	Mental health and helping teams	A 3-part program on the roots of burnout, shared decompression practices, and identity-conscious operations	3-session team program
Workshops & Trainings	Universities, nonprofits, collectives, mission-driven orgs	Custom workshop design, trauma-aware facilitation, and practical tools	Single session or series
Event Planning & Experiential Design	Gatherings that need to feel intentional	Concept through day-of coordination and facilitation	Project
Integrated Support Package	Organizations that need more than one of the above	Consulting, admin organizing, workshops, and event design in one plan	Custom

ADD-ONS

You can add any of these to a package from your portal: Strategy Intensive (a focused 90-minute session on one priority), SOP & Systems Documentation Build, Offer & Pricing Design Session, Team Workshop, Monthly Strategy Check-in, and Event Day-of Coordination.

Your pricing lives in your proposal inside the portal, so you always see the numbers that apply to you.

How we work

Every engagement follows the same six steps, so you always know where you are.

1. **Inquiry.** You tell us about your organization through the contact form on our site. It takes about five minutes.
2. **Consultation.** We meet to talk through what is happening and what you want to change. We take notes on a consultation sheet that you can see afterward.
3. **Proposal.** You receive an access code to your private portal. Your package, investment, and optional add-ons are laid out there. Nothing is hidden in an attachment.
4. **Kickoff.** Once you say yes and pay your first part, we set up your strategy plan. If your package includes the wellness assessment, it opens in your portal the same day.
5. **The work.** We meet in strategy sessions, each with a goal and an agenda. Between sessions, both of us have tasks. You can see progress at any time.
6. **Wrap-up.** You leave with a roadmap, your documents, and a clear view of what to keep doing. Many clients continue with a Monthly Strategy Check-in.

WHAT WE NEED FROM YOU

- One point of contact who can make decisions.
- Honest answers, even when they are uncomfortable.
- Time protected for sessions and for your tasks between them.

Your client portal

Your portal is the one place for everything we do together. You sign in on our website with the access code we send you.

SECTION	WHAT IT IS FOR
Workspace	Your strategy plan progress, your next session, your next three tasks, and where your assessment stands
Your work	Milestones and deliverables as they are finished
Consult notes	Summaries from our consultation and check-in conversations
Your package	What is included in your engagement
Investment	Your total, what has been paid, and what remains
Add-ons	Extra services you can add when you need them
Pay	Secure card payment for your package or an add-on
Library	Workshops, guides, and tools, including this guidebook
Book a session	Open times on our calendar
Next steps	What happens next and how to send us a request

THREE HABITS THAT MAKE THE PORTAL WORK FOR YOU

- Open the Workspace box first. It always shows the next thing to do.
- Mark your tasks as you go. A task moves from not started, to in progress, to done.
- Ask inside the portal. Comments and change requests stay attached to the task they are about, so nothing gets lost in email.

Strategy sessions and your strategy plan

A strategy session is a working meeting with a goal, an agenda, and tasks that come out of it. Your strategy plan is where all of that lives.

WHAT A TYPICAL THREE-SESSION ARC LOOKS LIKE

1. **Where you are and where you're going.** We get clear on your goals, your capacity, and what is in the way.
2. **Systems and workflows.** We map the work so it does not all live in your head.
3. **Your roadmap.** You leave with a 90-day plan, owners, and dates.

INSIDE YOUR PLAN

- **Progress bars.** One for the whole plan, one for your tasks, one for ours.
- **Sessions.** Each shows its date, goal, agenda, notes, decisions, and resources to review.
- **Tasks.** Every task has an owner, a due date, and a status. Some link straight to a service, a course, a Wellness Library piece, or your assessment.

WHAT YOU CAN DO

- Check off and edit your own tasks.
- Add a task of your own or an item to a session agenda.
- Comment on any task.
- Request a change to one of our tasks, a session, or the whole plan. We reply right there.

BEFORE EACH SESSION

- ☐ Read the session goal and agenda in your plan
- ☐ Add anything you want covered to the agenda
- ☐ Update the status of your tasks
- ☐ Open the resources listed for that session

The Organizational Wellness Assessment

The assessment shows where your operations support your people and where they wear them down. It compares how the work is set up with how your team experiences it.

THE FOUR STAGES

1. **You** complete the leader questionnaire and an operations snapshot. Plan on about 20 minutes.
2. **Your team** answers an anonymous survey. It takes about 8 minutes.
3. **We** review the results and prepare findings.
4. **Together** we walk through the results and add the priorities to your strategy plan.

WHAT IT LOOKS AT

AREA	THE QUESTION BEHIND IT
Workload & Capacity	Does the amount of work fit the people and hours available?
Recovery & Scheduling	Do schedules leave room to recover from demanding work?
Support & Supervision	Do people get consistent support, especially after hard days?
Role Clarity & Workflows	Do roles, processes, and tools make the work easier?
Psychological Safety & Belonging	Can people speak up and be fully themselves?
Leadership & Communication	Are decisions and changes shared clearly and fairly?
Purpose & Growth	Does the work feel meaningful, with room to grow?

The operations snapshot adds the facts: workload by role, typical hours, how scheduling works, time off and coverage, the workflows that cause the most friction, and the tools you run on.

HOW YOUR TEAM'S PRIVACY IS PROTECTED

- No names or emails are collected.
- Results show as group averages only.
- Breakdowns by role are hidden for any group with fewer than three responses.
- Written comments are shared with you only when it is safe to do so.

WHAT YOU RECEIVE

- A score for each area, with your own view marked beside your team's.
- Your strengths to protect and where to focus first.
- Our written findings.
- A prioritized action plan sorted into Now (next 30 days), Next (30 to 90 days), and Later (after 90 days).

The assessment is a structured review tool to guide planning. It is not a clinical or diagnostic instrument.

Courses, the Wellness Library, and products

Alongside consulting, Build & Bloom offers ways to keep learning and resting between sessions. Anything you have access to shows up in your portal.

OFFERING	WHAT IT IS	WHERE TO FIND IT
Courses	Self-paced and live learning with lessons, a workbook, and a certificate	Courses, in your portal
The Sustained Healer Masterclass	A 3-part team program on burnout, decompression, and identity-conscious operations	Booked as a service
The Wellness Library	A membership library of guided audio, journaling, coping tools, and readings. Your reflections stay private to you	Your membership, in your portal
The Right Yes	A 21-day guided journal for moving from trying to doing	Digital products
Coloring book	Mindful coloring pages for rest and reset	Digital products
Workshops & events	Community conversations, trainings, and gatherings	Library, in your portal

HOW THESE CONNECT TO YOUR PLAN

When a course, a library piece, or a product would help with something on your strategy plan, we link it to that task. You open it from the task itself.

Templates and scripts

Copy these and make them yours.

Invite your team to the anonymous survey

Subject: 8 minutes to help us work better

Team,

We are working with Build & Bloom Collective to look honestly at how our work is set up and how it feels to do it. I am asking each of you to take an anonymous survey. It takes about 8 minutes.

No names or emails are collected. I will only see group averages, never individual answers.

Survey link: [paste your link] Please finish by: [date]

Thank you for telling the truth. That is how this gets better.

A reminder, three days before the survey closes

Quick reminder: our anonymous team survey closes on [date]. If you have not taken it, here is the link: [paste your link]. It takes about 8 minutes, and every response makes the results more useful.

Session prep, five minutes

- What moved forward since we last met?
- What is stuck, and what is it waiting on?
- What is the one decision I need to make in this session?
- What do I need from Build & Bloom before next time?

What to gather before kickoff

- ☐ Your org chart or a simple list of roles
- ☐ Any current plans, policies, or process documents
- ☐ The tools you use for scheduling, records, and communication
- ☐ Rough workload numbers by role
- ☐ Your top three goals for the next 6 to 12 months

Requesting a change

I'd like to change [task, session, or part of the plan]. What I need instead is [what]. The reason is [why].
This matters by [date].

Sharing results with your team

Thank you for taking the survey. Here is what we heard: [two strengths], and [two areas that need attention]. Here is what we are doing first: [your Now priorities]. I will update you again on [date].

Working agreements and getting started

WORKING AGREEMENTS

- We tell each other the truth, kindly.
- We keep the plan current. If it changes, it changes in the portal.
- We protect session time and come prepared.
- We keep what your team shares anonymous.
- We move at a pace your people can sustain.

COMMON QUESTIONS

How do I sign in? Go to our website, choose the client login, and enter your access code. If you lose your code, message us and we will send a new one.

Can more than one person on my team use the portal? The access code is shared with the people you choose. Keep it to decision makers, since the portal shows your investment and payments.

What if I fall behind on my tasks? Tell us in a comment or a change request. We would rather adjust the plan than have it sit untouched.

Who sees the team survey answers? Only Build & Bloom sees individual responses, and they carry no names. You see group results.

Can I add services later? Yes. Add-ons are in your portal, and assessment results often point to the right next step.

GETTING STARTED

1. Send an inquiry through the contact form on our website.
2. Book your consultation.
3. Open your portal with the access code we send.
